

Using a Japanese toilet is a little confusing.  
Here are the illustrated instructions for foreign visitors.

## Japanese-style Toilet

Squat down to face the direction described in the picture.  
There are three types of toilet flush.

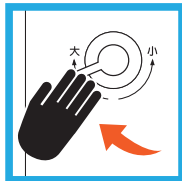

Lever type

Button type

Twist type

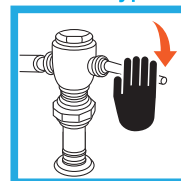

## Western-style Toilet

Use it as described in the picture.  
Some toilets have warm-water cleaning function.

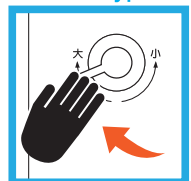

Lever type

Button type

Twist type

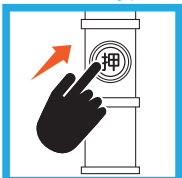

## Men's Toilet

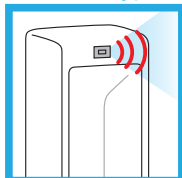

There are two types of toilet flush.

Button type

Sensor type

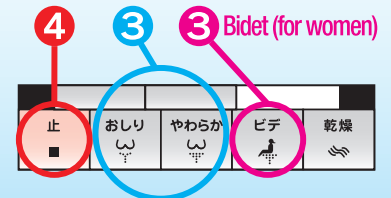

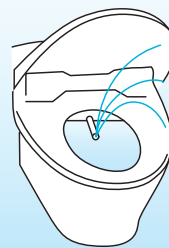

Sensor type toilets flush automatically when you move away.

## Warm-water Cleaning Toilet Seat

All the western-type toilets of NEXCO West Japan have warm-water cleaning function. Warm water for cleaning squirts from the nozzle under the seat as described in the picture.

### How to Use Warm-Water Cleaning Seat

- 1 Sit down
- 2 Do the business
- 3 Wash 3 Bidet (for women)
- 4 Stop
- 5 Wipe off water drops with toilet paper
- 6 Stand up
- 7 Flush the toilet

## Precautions

- Make sure to flush used toilet paper.
- Do not flush other paper than the one provided in the toilet.
- Do not flush garbage.
- Do not smoke in the toilet.
- Use public toilet cleanly.
